^{KJV} **13:16** And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads:

^{NET} **Revelation 13:16** He also caused everyone (small and great, rich and poor, free and slave) to obtain a mark on their right hand or on their forehead.

^{NIV} **Revelation 13:16** It also forced all people, great and small, rich and poor, free and slave, to receive a mark on their right hands or on their foreheads,

We are now living through a chaotic period in human history, a proclaimed “time of troubles.” What you must realize is that much of this deconstructive chaos is not the product of human stupidity, but is actually being purposely fomented and utilized as a powerful catalyst for change. World leaders speak of *change* constantly, but it is incredibly rare that they provide any details concerning such change.

So what exactly is going on here? In short, the changes that we now bare witness to are leading up to the ultimate goal: the total reconstruction of the human mind, body and spirit from the inside out.

Enhancing Human Performance

Converging technologies are taken seriously by governments, corporations, the military, academia, national laboratories and other important institutions. In 2001...a conference entitled *Converging Technologies for Improving Human Performance*. It gathered experts to discuss their “vision” for,

- ❖ Brain Machine Interface
- ❖ Nanotechnology
- ❖ Artificial Intelligence
- ❖ Brain Implants/cognitive enhancement
- ❖ Robotics
- ❖ Hive mind consciousness

Officials are taking these ideas seriously, and are now concentrating on how to facilitate such monumental *change*, while making it acceptable to the public at large.

Revelation 13: 16

Gr: Poieo – POY-EH-O

- To make one do a thing
- To undertake or do something that brings about an event, state, or condition
- To force someone
- To do something to others or *with*; the action may result to the advantage or disadvantage of this person:

WHAT IS THE
MARK OF
THE BEAST?

A MARK IN THEIR RIGHT HAND

- A pledge to mutual friendship or a compact
- COMPACT: as used in politics may refer broadly to a pact or treaty; in more specific cases it may refer to: The **Compact**, the agreement between the government and the voluntary
- to indicate that he has *become a partner in a universal government*

A MARK IN THEIR FOREHEAD

- Gr: Metopon – MET-O-PON: The space between the eyes (the third eye)
- With whatever is placed in the forehead, a connection to some other device that control reality
- Thoughts and knowledge can be downloaded directly into the brain and become part of the thought pattern
- The third eye is opened as a result the individual can see into other dimensions

Without CASH
or a Global ID,

you will **NOT** be able to

- drive a **Car**
- ride a **Plane or Train**
- enter a **Federal Building**
- open a **Bank Account**
- hold a **Job**

BEASTECH

- the United Nations Resolution 666, the new constitution, biometrics, barcoding, GPS (Global Positioning System), the cashless society
- This is one of the first few steps that must be enacted to get us ready for biochip implants, and it is an action that will be taken under the guise of what is “best for the people.”
- If studied fairly, without consideration for the prophetic implications, there could possibly be a valid argument about whether a cashless society really is for our own good.
- However, the end result and drawbacks far outweigh any temporary convenience or good it will accomplish

Some of the positive theories and facts you will be hearing more and more about as the time draws closer to being a completely electronic-currency nation are that it will: inhibit terrorism; stop theft, robberies, and muggings; stop international drug dealing; stop income tax cheaters; prevent parents from ducking out of paying child support; and render obsolete the fear of misplacing a wallet or purse containing a roll of cash, among other things. Think of the convenience and safety.

But what are those drawbacks I mentioned? To start with, it probably does not come as a shock to you that everything you have, owe, or own is in a machine somewhere (including your health records, family history, religious affiliations, job history, credit history, political leanings, and much more), which gives anyone with the proper authorization all the information about your personal business

Historically, the technology needed to unravel the Revelation 13:16–18 mystery of the Mark of the Beast in this light has been unavailable (no one can buy or sell without the Mark in his or her right hand or forehead). Naturally, the manufacturers of this technology try to assure us that it wasn't designed for that purpose, but even as they speak, plans are being discussed to implant the "difficult" cases, i.e., the prison population, runaway teens, the elderly who have a tendency to wander off and become lost, and even babies before they leave the hospital to put an end to kidnapping

RADIO FREQUENCY IDENTIFICATION (RFID CHIP)

- The RFID technology...is forecast to be connected to future GRINS technologies.
- RFID chips employ tiny integrated circuits for storing and processing information
- In recent years RFID technology has been expanding within public and private firms as a method of verifying and tracking people
- When implanted with a body, the device is powered electromechanically through the movement of muscles and can be activated either by the wearer or by the monitoring facility.
- The plan to microchip humanity smacks right into the biblical mark of the beast

THE CHIP IS NOT THE PROBLEM.

THE CONTENT OF THE CHIP IS THE PROBLEM

**ACCESS TO THE CHIP REMOTELY IS THE BIG
PROBLEM**

A golden Bitcoin coin is centered in the background. It features the Bitcoin logo and binary code (0s and 1s) around its edge. The coin is surrounded by a network of golden circuit lines and nodes, some ending in small circles, creating a digital, technological aesthetic. The entire scene is set against a solid orange background.

Cryptocurrency

The Technology behind it

A conceptual diagram for blockchain technology. The background is a dark blue grid of glowing circuit lines and nodes. In the center is a large, glowing white circle containing the text "BLOCK CHAIN TECHNOLOGY". Surrounding this central circle are six smaller, glowing blue circles, each containing a white icon: a laptop with binary code, a chain link, a bank building with a dollar sign, a padlock, three Bitcoin symbols, and a tablet with binary code.

**BLOCK CHAIN
TECHNOLOGY**

How it works:

Someone requests a transaction.

The requested transaction is broadcast to P2P network consisting of computers, known as nodes.

Validation

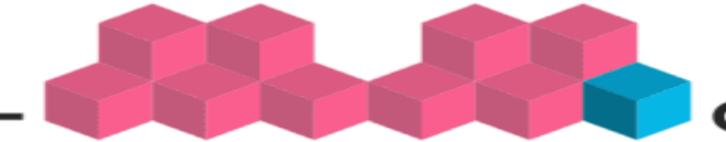

The network of nodes validates the transaction and the user's status using known algorithms.

A verified transaction can involve cryptocurrency, contracts, records, or other information.

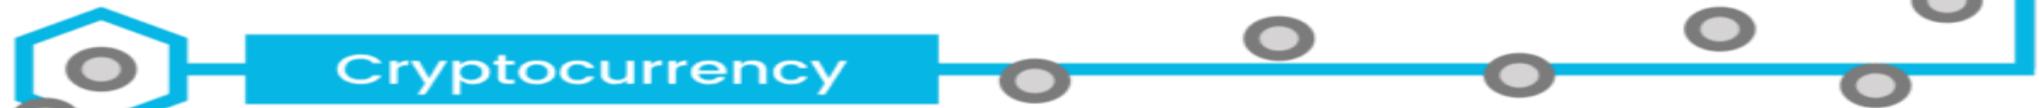

The transaction is complete.

The new block is then added to the existing blockchain, in a way that is permanent and unalterable.

Once verified, the transaction is combined with other transactions to create a new block of data for the ledger.

Cryptocurrency

Cryptocurrency is a medium of exchange, created and stored electronically in the blockchain, using encryption techniques to control the creation of monetary units and to verify the transfer of funds. Bitcoin is the best known example.

Has no intrinsic value in that it is not redeemable for another commodity, such as gold.

Has no physical form and exists only in the network.

Its supply is not determined by a central bank and the network is completely decentralized.

GENETICS OF THE DECEPTION

- RECOMBINANT DNA
- HYBRID DNA
- HIS (ANTICHRIST) IMAGE
- HIS MARK

RECOMBINANT DNA/HYBRID DNA

- The technology known as recombinant DNA in fact now makes it possible for a grown man/woman to be altered at the genetic level
- If a non-human gene were introduced into the human genome then the person would no longer be fully human but would by definition become a hybrid
- Recombinant DNA is “hybrid DNA that has been created from more than one source
- The basic procedure is where a DNA strand is opened up and then a gene from another organism is inserted, making a new strand of DNA.

RECOMBINANT DNA/HYBRID DNA

- By means recombinant DNA, satan may be able to convince humanity to insert alien/his genes, perceived as desirable, into the human genome
- The genetic composition of the person therefore, would result in that person becoming a chimera
- A fully mature man could inject himself with the selected gene or genes of another species
- We can see how

HIS MARK

- Revelation 13:15
- The beast will cause or require everyone to take his mark, the number of his name and to worship his image.
- How that will be realized there are three possible outcomes
 - ❖ Trans-humanism
 - ❖ Transgenic creature
 - ❖ Synthetic biology

TRANSHUMANISM

The study of the means and obstacles to humanity using technological and other rational means to becoming post-humans.

POSTHUMANS

is the term for the much advanced beings that humans may one day design themselves into if we manage to upgrade our current human nature and radically extend our capacities

TRANSGENIC CREATURE

Cross species experiment, where an animal(s) is carrying the gene of other species

SYNTHETIC BIOLOGY

Is one of the newest area of biology...that seeks to design new forms of life and biological functions not found in nature

SYNTHETIC BIOLOGY

- Synthetic biology forecast that as computer code is written to create software, to augment human capabilities, so too genetic code will be written to create life forms to augment civilization.
- The new better mice, dogs, humans that grow from this science will be unlike any of the versions God made.
- Scientist at the University of Copenhagen are working on a third PNA strand –a synthetic hybrid of protein and DNA – to upgrade humanity's two existing DNA stands from double to triple helix
- In doing so, these scientist “dream of synthesizing life that is utterly alien to this world

HIS IMAGE

- PATENTING NEW LIFE FORMS – large corporations will soon be patenting synthetic life forms
- People could die in the future from not being to afford medical treatment as a result of medicines owned by patent holders of specific genes related to the make up of those person.

HIS IMAGE

- If I am the owner of the patent, then you would have to come to me to purchase that particular gene
- But I would have created it in such a way that it accesses your body via your hand and head
- This would therefore mean the owner could have possibly used it before –Rev. 13:3
- Then created copies of this gene, through Synthetic Biology
- Where would the “Man of sin” get a copy of this kind of gene?

- He will obtain satan's own genetic material and then insert into his body using recombinant DNA
- His own RNA will then cause the satanic strain to be replicated into various parts of his body and once completed, his genetic make up (DNA) will be a new code – a code not strictly from Adam (even in his fallen state)
- But will be augmented that has been mixed with satan just as God declared in Gen.3: 15
- Satan will have finally succeeded in imitating the reincarnation
- This man (the antichrist) will literally become the genetic son of satan because he will have satan's seed mingled in his own

³⁶ Then Jesus sent the multitude away, and went into the house: and his disciples came unto him, saying, Declare unto us the parable of the tares of the field.

³⁷ He answered and said unto them, He that soweth the good (KALOS-MORAL) seed (SPERMA-OFFSPRING) is the Son of man;

³⁸ The field (ARGOS –LAND) is the world (KOSMOS-HUMANITY); the good seed are the children (HUIOS-SONS) of the kingdom; but the tares (WEED, TARES, FALSE SEED) are the children of the wicked one;

³⁹ The enemy that sowed them is the devil; the harvest is the end of the world; and the reapers are the angels. (Mat 13:36-39 KJV)
